About Me

Hi! I'm Renusree T, a passionate web developer with a keen interest in creating beautiful, responsive websites and web applications. I specialize in front-end development and have experience working with HTML, CSS, JavaScript, and various frameworks.

My Skills

HTML & CSS   JavaScript   UI/UX Design   Java Programming   My SQL

My Projects

ATM

This Java program simulates an ATM machine that allows users to check their balance, deposit or withdraw money, and validate or change their PIN. The program uses a menu-driven approach with options for various ATM functionalities, interacting with the user through console input.

My Projects

Receipt

This Java program simulates ordering a pizza, where the user can choose between a veg or non-veg pizza, add toppings, and apply a discount coupon. It calculates the total cost, including base price, toppings, tax, and discount, and displays the final amount.
